24 September 1955

MEMORANDUM FOR RECORD:

SUBJECT: Conversation with Senator Knowland

1. At request of DCI, I completed this date a long-distance phone call to Senator Knowland in California.

2. I reminded the Senator of a conversation he had held sometime ago re the Senator's concern over the plight of a certain individual in the Far East. The Senator recalled the conversation and I am certain that he realized we were talking about [redacted] 25X1
We recalled that in the earlier conversation, the DCI was not as concerned as the Senator was. I informed the Senator that in the light of recent information, 25X1 [redacted] appeared to be in more serious trouble with evidence of a frame-up from above, and that the DCI was anxious for him to know of this development.

3. The Senator thanked us for the information and indicated that he had means of initiating some sort of remedial action which might avoid the harmful effects of American interference.
